Thus, the literal part--of the third term, (l in the above example, is naturally +, the coefficient of it, 1 short, if any coefficient, found as before, have the same sign as the term to which it belongs naturally has, that term will be positive; but if it have a different sign, the term will be negative. Ex. 3. Expand j-into an infinite series. however, comes out--s, and hence the term is--. In From the preceding example, it appears, that the Binomial Theorem may not only be employed in extracting imperfect roots, but also in finding quotients. Thus, j-, evidently expresses the quotient of a divided by the cube root of (--y). If, by means of this theorem, the student find the quotients of a divided by a+x, and of a divided by a--x, or, which...
